

What if your drug is not on the Formulary?

If your prescription is not listed on the formulary, you should first contact the Member Services Center at 1-415-834-2118 to ensure that it is not covered. If the Member Services Center confirms that we do not cover your drug, you have three options:

- 1) You can ask your doctor if you can switch to another drug covered by us.
- 2) You can ask us to make an authorization to cover your drug.
- 3) You can pay out-of-pocket for the drug and request that the Plan reimburse you by requesting an authorization. If the authorization request is not approved, the Plan is not obligated to reimburse you. If the authorization request is not approved, you may appeal the Plan's denial.

You can obtain non-formulary prescription drugs (those not listed on our drug formulary for your condition) if authorized by the Plan and a CCHP physician determines that they are medically necessary. If you disagree with your physician's determination that a non-formulary prescription drug is not medically necessary, you may file a grievance as described in the "Grievances and Appeals Process" section of your Evidence of Coverage booklet. This formulary may change during the year.
